INSTALLATION STEPS

- 1** Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

- 2** Apply a quality adhesive on the back of the 3D PS WALL. Apply small amount of hotmelt(glue-gun) on the back of 3D PS WALLS or use air-tacker for instant adhesion.

- 3** 3D PS WALLS can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

- 4** Jigsaw or circular saw can be used for cutting.

- 5** For corner, combine the two grooves.

- 6** Coordinating mouldings can be used for clean and nice finish.

3D PS WALLS Handling Precautions

- Recommend to keep in room temperature of 18-25°C. Maintain optimal room temperature before and after the construction.
- Gently handle the edge of its product.
- Remove wallpapers or any subjects on the walls before construction.
- Prep-work with plaster board or plywood is recommended before the construction.
- Special glue is recommended during construction.
- Circular saw is recommended for cutting.
- 3D PS WALLS is intended only for indoor use.
- Avoid direct sun exposure and installing near the stove.
- 3D PS WALLS are waterproof, but do not expose to moisture for a long time because it can damage molds.
- Use a wet cloth or a rubber eraser.
- If wallpaper job near the 3D PS WALL is needed, please remove the paste on the 3D PS WALL immediately.
